Academic Projects

Title : Human Resource Management
Platform : MS.NET **Duration** : 2 Months
Description : Human Resource Management is important part of any organization, which is concerned with the human resources of an organization. Its objective is the maintenance of better human relations in the organization by the development, application and evaluation of policies. It has sub modules like Attendance, Payroll, leave management and performance. It is one of the core module of any ERP Applications and most valuable resource in any organization.

Title : Iot Ambulance With Automatic Traffic Light Control
Platform : IoT **Duration** : 2 Months
Description : The road accident in the present era is increased to greater extent. The loss of human life due to accident must be avoided. Traffic congestion and tidal flow are major facts that cause delay to ambulance. In order to save human life from accidents we introduce a scheme called Iot Ambulance. The main concept behind this scheme is to provide a smooth flow for the emergency vehicles like ambulance to reach the hospitals in time and thus minimizing the delay caused by the traffic congestions.
